ABOUT ME

I am a Full Stack developer graduated at Academlo and a professional in Business Administration, with expertise in HTML5, CSS, and JavaScript, Node.js, React, and GIT. My goal is to apply my technical programming skills and business knowledge to contribute to the success of projects and continue to grow in this exciting industry.

WORK EXPERIENCE

Customer Service

Ferrotornillos Jamundí, Julio 2012 - 2021

Close collaboration with technical and development teams to provide comprehensive support for technological solutions, enhancing communication efficiency between departments and facilitating the implementation of joint projects.

Bilingual Customer Service and Sales Agent

Sitel, Mayo 2021 - Julio 2021

I used my bilingual language skills to communicate clearly and effectively with clients from different cultures, developing the ability to explain technical concepts in an understandable manner.

Programming Languages

JavaScript (ES6+), TypeScript.

Technologies

HTML, CSS, React, Redux, Node.js, PostgreSQL, DBeaver, Postman, Sequelize, Express.js, Axios, Git, Git-hub.
